Chile, Malaysia, New Zealand, Nigeria and Switzerland: draft resolution

Decreasing the operational readiness of nuclear weapons systems

The General Assembly,

Recalling its resolutions 62/36 of 5 December 2007, 63/41 of 2 December 2008, 65/71 of 8 December 2010 and 67/46 of 3 December 2012,

Recalling also that the maintenance of nuclear weapons on high alert was a feature of cold war nuclear postures, and welcoming the increased confidence and transparency since the cessation of the cold war,

Concerned that, notwithstanding the end of the cold war, several thousand nuclear weapons remain on high alert, ready to be launched within minutes,

Noting the continuing engagement in multilateral disarmament forums in support of further reductions to the operational status of nuclear weapons systems,

Recognizing that the maintenance of nuclear weapons systems at a high level of readiness increases the risk of the unintentional or accidental use of such weapons, which would have catastrophic humanitarian consequences,

Recognizing also that reductions in deployments and the lowering of operational status contribute to the maintenance of international peace and security, as well as to the process of nuclear disarmament, through the enhancement of confidence-building and transparency measures and a diminishing role for nuclear weapons in security policies,

Welcoming the steps taken by some States in support of nuclear disarmament, including de-targeting initiatives, increasing the amount of preparation time required for deployment and other measures to diminish further the possibility of nuclear launches resulting from accidents, unauthorized actions or misperceptions,

Welcoming also the adoption by consensus of the conclusions and recommendations for follow-on actions by the 2010 Review Conference of the

Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,[1] including the commitments of the nuclear-weapon States to promptly engage with a view to, inter alia, considering the legitimate interest of non-nuclear-weapon States in further reducing the operational status of nuclear weapons systems in ways that promote international stability and security,

Acknowledging, in this regard, the continued dialogue among the nuclear-weapon States to advance their nuclear non-proliferation and disarmament commitments under the action plan of the 2010 Review Conference and the potential of this process for leading to deeper engagement on nuclear disarmament and greater mutual confidence,

Taking note of the references to operational readiness in reports of the nuclear-weapon States to the third session of the Preparatory Committee for the 2015 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,

Welcoming all opportunities to address the further reduction of the operational status of nuclear weapons systems as a step leading to nuclear disarmament,

1. *Calls for* further practical steps to be taken to decrease the operational readiness of nuclear weapons systems, with a view to ensuring that all nuclear weapons are removed from high alert status;

2. *Looks forward* to the issue of the lowering of the operational readiness of nuclear weapons systems being addressed further at the 2015 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons;

3. *Urges* States to update the General Assembly on progress made in the implementation of the present resolution;

4. *Decides* to remain seized of the matter.

Conclusion of effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons

The General Assembly,

Bearing in mind the need to allay the legitimate concern of the States of the world with regard to ensuring lasting security for their peoples,

Convinced that nuclear weapons pose the greatest threat to mankind and to the survival of civilization,

Noting that the renewed interest in nuclear disarmament should be translated into concrete actions for the achievement of general and complete disarmament under effective international control,

Convinced that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Determined to abide strictly by the relevant provisions of the Charter of the United Nations on the non-use of force or threat of force,

Recognizing that the independence, territorial integrity and sovereignty of non-nuclear-weapon States need to be safeguarded against the use or threat of use of force, including the use or threat of use of nuclear weapons,

Considering that, until nuclear disarmament is achieved on a universal basis, it is imperative for the international community to develop effective measures and arrangements to ensure the security of non-nuclear-weapon States against the use or threat of use of nuclear weapons from any quarter,

Recognizing that effective measures and arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons can contribute positively to the prevention of the spread of nuclear weapons,

Bearing in mind paragraph 59 of the Final Document of the Tenth Special Session of the General Assembly, the first special session devoted to disarmament,[1] in which it urged the nuclear-weapon States to pursue efforts to conclude, as appropriate, effective arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, and desirous of promoting the implementation of the relevant provisions of the Final Document,

Recalling the relevant parts of the special report of the Committee on Disarmament[2] submitted to the General Assembly at its twelfth special session, the second special session devoted to disarmament,[3] and of the special report of the Conference on Disarmament submitted to the Assembly at its fifteenth special session, the third special session devoted to disarmament,[4] as well as the report of the Conference on its 1992 session,[5]

Recalling also paragraph 12 of the Declaration of the 1980s as the Second Disarmament Decade, contained in the annex to its resolution 35/46 of 3 December 1980, in which it is stated, inter alia, that all efforts should be exerted by the Committee on Disarmament urgently to negotiate with a view to reaching agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Noting the in-depth negotiations undertaken in the Conference on Disarmament and its Ad Hoc Committee on Effective International Arrangements to Assure Non-Nuclear-Weapon States against the Use or Threat of Use of Nuclear Weapons,[6] with a view to reaching agreement on this question,

Taking note of the proposals submitted under the item in the Conference on Disarmament, including the drafts of an international convention,

Taking note also of the relevant decision of the Thirteenth Conference of Heads of State or Government of Non-Aligned Countries, held in Kuala Lumpur on 24 and 25 February 2003,[7] which was reiterated at the Fourteenth, Fifteenth and Sixteenth Conferences of Heads of State or Government of Non-Aligned Countries, held in Havana on 15 and 16 September 2006,[8] in Sharm el-Sheikh, Egypt, on 15 and 16 July 2009,[9] and in Tehran on 30 and 31 August 2012,[10] as well as the relevant recommendations of the Organization of Islamic Cooperation,

Taking note further of the unilateral declarations made by all the nuclear-weapon States on their policies of non-use or non-threat of use of nuclear weapons against the non-nuclear-weapon States,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, as well as the difficulties pointed out in evolving a common approach acceptable to all,

Taking note of Security Council resolution 984 (1995) of 11 April 1995 and the views expressed on it,

Recalling its relevant resolutions adopted in previous years, in particular resolutions 45/54 of 4 December 1990, 46/32 of 6 December 1991, 47/50 of 9 December 1992, 48/73 of 16 December 1993, 49/73 of 15 December 1994, 50/68 of 12 December 1995, 51/43 of 10 December 1996, 52/36 of 9 December 1997, 53/75 of 4 December 1998, 54/52 of 1 December 1999, 55/31 of 20 November 2000, 56/22 of 29 November 2001, 57/56 of 22 November 2002, 58/35 of 8 December 2003, 59/64 of 3 December 2004, 60/53 of 8 December 2005, 61/57 of 6 December 2006, 62/19 of 5 December 2007, 63/39 of 2 December 2008, 64/27 of 2 December 2009, 65/43 of 8 December 2010, 66/26 of 2 December 2011, 67/29 of 3 December 2012 and 68/28 of 5 December 2013,

1. *Reaffirms* the urgent need to reach an early agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons;

2. *Notes with satisfaction* that in the Conference on Disarmament there is no objection, in principle, to the idea of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, although the difficulties with regard to evolving a common approach acceptable to all have also been pointed out;

3. *Appeals* to all States, especially the nuclear-weapon States, to work actively towards an early agreement on a common approach and, in particular, on a common formula that could be included in an international instrument of a legally binding character;

4. *Recommends* that further intensive efforts be devoted to the search for such a common approach or common formula and that the various alternative approaches, including, in particular, those considered in the Conference on Disarmament, be further explored in order to overcome the difficulties;

5. *Also recommends* that the Conference on Disarmament actively continue intensive negotiations with a view to reaching early agreement and concluding effective international agreements to assure the non-nuclear-weapon States against the use or threat of use of nuclear weapons, taking into account the widespread support for the conclusion of an international convention and giving consideration to any other proposals designed to secure the same objective;

6. *Decides* to include in the provisional agenda of its seventieth session the item entitled "Conclusion of effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons".

Recognizing the importance of confidence-building measures for regional and international peace and security,

Convinced that endeavours by countries to promote regional disarmament, taking into account the specific characteristics of each region and in accordance with the principle of undiminished security at the lowest level of armaments, would enhance the security of all States and would thus contribute to international peace and security by reducing the risk of regional conflicts,

1. *Stresses* that sustained efforts are needed, within the framework of the Conference on Disarmament and under the umbrella of the United Nations, to make progress on the entire range of disarmament issues;

2. *Affirms* that global and regional approaches to disarmament complement each other and should therefore be pursued simultaneously to promote regional and international peace and security;

Welcoming the peace processes already initiated by States concerned to resolve their disputes through peaceful means bilaterally or through mediation, inter alia, by third parties, regional organizations or the United Nations,

Recognizing that States in some regions have already taken steps towards confidence-building measures at the bilateral, subregional and regional levels in the political and military fields, including arms control and disarmament, and noting that such confidence-building measures have improved peace and security in those regions and contributed to progress in the socioeconomic conditions of their people,

Concerned that the continuation of disputes among States, particularly in the absence of an effective mechanism to resolve them through peaceful means, may contribute to the arms race and endanger the maintenance of international peace and security and the efforts of the international community to promote arms control and disarmament,

1. *Calls upon* Member States to refrain from the use or threat of use of force in accordance with the purposes and principles of the Charter of the United Nations;

2. *Reaffirms its commitment* to the peaceful settlement of disputes under Chapter VI of the Charter, in particular Article 33, which provides for a solution by negotiation, enquiry, mediation, conciliation, arbitration, judicial settlement, resort to regional agencies or arrangements or other peaceful means chosen by the parties;

Conventional arms control at the regional and subregional levels

The General Assembly,

Recognizing the crucial role of conventional arms control in promoting regional and international peace and security,

Convinced that conventional arms control needs to be pursued primarily in the regional and subregional contexts since most threats to peace and security in the post-cold-war era arise mainly among States located in the same region or subregion,

Aware that the preservation of a balance in the defence capabilities of States at the lowest level of armaments would contribute to peace and stability and should be a prime objective of conventional arms control,

Desirous of promoting agreements to strengthen regional peace and security at the lowest possible level of armaments and military forces,

Noting with particular interest the initiatives taken in this regard in different regions of the world, in particular the commencement of consultations among a number of Latin American countries and the proposals for conventional arms control made in the context of South Asia, and recognizing, in the context of this subject,

the relevance and value of the Treaty on Conventional Armed Forces in Europe,[1] which is a cornerstone of European security,

Believing that militarily significant States and States with larger military capabilities have a special responsibility in promoting such agreements for regional security,

Believing also that an important objective of conventional arms control in regions of tension should be to prevent the possibility of military attack launched by surprise and to avoid aggression,

1. *Decides* to give urgent consideration to the issues involved in conventional arms control at the regional and subregional levels;

2. *Requests* the Conference on Disarmament to consider the formulation of principles that can serve as a framework for regional agreements on conventional arms control, and looks forward to a report of the Conference on this subject;

Reaffirming the conviction of the States parties to the Treaty on the Non-Proliferation of Nuclear Weapons[4] that the Treaty is a cornerstone of nuclear non-proliferation and nuclear disarmament, and the importance of the decision on strengthening the review process for the Treaty, the decision on principles and objectives for nuclear non-proliferation and disarmament, the decision on the extension of the Treaty and the resolution on the Middle East, adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,[5]

Recalling the entry into force of the Treaty between the United States of America and the Russian Federation on Strategic Offensive Reductions (the Moscow Treaty)[9] as a significant step towards reducing their deployed strategic nuclear weapons, while calling for further irreversible deep cuts in their nuclear arsenals,

Preventing the acquisition by terrorists of radioactive sources

The General Assembly,

Recalling its resolutions 62/46 of 5 December 2007, 65/74 of 8 December 2010 and 67/51 of 3 December 2012,

Recognizing the essential contribution of radioactive materials and sources to social and economic development, and the benefits drawn from their use for all States,

Recognizing also the determination of the international community to combat terrorism, as evident in relevant General Assembly and Security Council resolutions,

Deeply concerned by the threat of terrorism and the risk that terrorists may acquire, traffic in or use radioactive materials or sources in radiological dispersion or emitting devices,

Deeply concerned also by the potential threat to human health and the environment that would result from the use of such devices by terrorists,

Noting with concern the ongoing occurrence of nuclear and radioactive materials trafficking,

Recalling the importance of international conventions aimed at preventing and suppressing such a risk, in particular the International Convention for the Suppression of Acts of Nuclear Terrorism, adopted on 13 April 2005,[1] and the

Convention on the Physical Protection of Nuclear Material, adopted on 26 October 1979,[2] as well as its Amendment, adopted on 8 July 2005,[3]

Noting that actions of the international community to combat the proliferation of weapons of mass destruction and prevent access by non-State actors to weapons of mass destruction and related material, notably Security Council resolutions 1540 (2004) of 28 April 2004 and 1977 (2011) of 20 April 2011, constitute contributions to the protection against terrorism using such materials,

Stressing the importance of the role of the International Atomic Energy Agency in promoting and reinforcing the safety and security of radioactive materials and sources, in particular by establishing technical guidance and supporting States in the improvement of national legal and regulatory infrastructure, and in strengthening coordination and complementarities among various nuclear or radiological security activities,

Noting the organization by the International Atomic Energy Agency of the International Conference on Nuclear Security: Enhancing Global Efforts, held in Vienna from 1 to 5 July 2013, as well as the International Conference on the Safety and Security of Radioactive Sources: Maintaining the Continuous Global Control of Sources throughout their Life Cycle, held in Abu Dhabi from 27 to 31 October 2013,

Stressing the contribution of the International Atomic Energy Agency to preventing illicit trafficking in radioactive materials and facilitating information-sharing on materials out of regulatory control through, inter alia, the Incident and Trafficking Database and its work in the field of nuclear forensics,

Taking note of the importance of the Joint Convention on the Safety of Spent Fuel Management and on the Safety of Radioactive Waste Management[4] with respect to its provisions on the safety of disused sealed sources,

Highlighting the importance of the Code of Conduct on the Safety and Security of Radioactive Sources and of its supplementary Guidance on the Import and Export of Radioactive Sources as valuable instruments for enhancing the safety and security of radioactive sources, noting that 123 States members of the International Atomic Energy Agency have made a political commitment to implement the provisions of the Code and 90 States have made a similar commitment to the supplementary Guidance, while recognizing that they are not legally binding, and highlighting the importance of the International Atomic Energy Agency Revised Action Plan for the Safety and Security of Radioactive Sources and its Nuclear Security Plan for 2010-2013, and of the voluntary contributions of Member States to the International Atomic Energy Agency Nuclear Security Fund,

Noting that a number of States have not yet become parties to the pertinent international instruments,

Encouraging Member States to make voluntary contributions to the International Atomic Energy Agency Nuclear Security Fund,

[4] United Nations, *Treaty Series*, vol. 2153, No. 37605.

Taking note of resolutions GC(58)/RES/9 and GC(58)/RES/10, adopted by the General Conference of the International Atomic Energy Agency at its fifty-eighth regular session, which address measures to strengthen international cooperation in nuclear, radiation, transport and waste safety and measures to protect against nuclear and radiological terrorism, and of the International Atomic Energy Agency Nuclear Security Plan for 2014-2017,

Welcoming the fact that Member States have taken multilateral actions to address this issue, as reflected in General Assembly resolution 68/10 of 6 November 2013,

Noting the various international efforts and partnerships to enhance nuclear and radiological security and to implement measures contributing to nuclear material security in relation to the security of radioactive substances, encouraging the efforts to secure those materials, and noting also in this respect recommendations of the International Atomic Energy Agency with regard to safe and secure management of radioactive sources,

Taking note of the findings of the International Conference on the Safety and Security of Radioactive Sources of 2013, which, inter alia, encourage the establishment, in consultation with the Member States, of a working group tasked with assessing the merits of developing an international convention on the safety and security of radioactive sources,

Noting that the Radiological and Nuclear Terrorism Prevention Unit of the International Criminal Police Organization (INTERPOL) works with nations to strengthen capabilities to counter nuclear smuggling and prevent terrorists from acquiring nuclear or radiological materials, and that INTERPOL Operation Fail Safe promotes the sharing of sensitive law-enforcement information on known nuclear smugglers,

Welcoming the ongoing individual and collective efforts of Member States to take into account in their deliberations the dangers posed by the lack or insufficiency of control over radioactive materials and sources, and recognizing the need for States to take more effective measures to strengthen those controls in accordance with their national legal authorities and legislation and consistent with international law,

Mindful of the responsibilities of every Member State, in accordance with international obligations, to maintain effective nuclear safety and security, asserting that responsibility for nuclear security within a State rests entirely with that State and noting the important contribution of international cooperation in supporting the efforts of States to fulfil their responsibilities,

Noting that the use and development of technologies using radioactive sources of lower activity can constitute, when consistent with their domestic policies and when technically and economically feasible, an alternative to technologies using sealed high-activity sources,

Mindful of the urgent need to address, within the United Nations framework and through international cooperation, this rising concern for international security,

1. *Calls upon* Member States to support international efforts to prevent the acquisition and use by terrorists of radioactive materials and sources, and, if

necessary, to suppress such acts, in accordance with their national legal authorities and legislation and consistent with international law;

2. *Encourages* all Member States that have not yet done so to become party to the International Convention for the Suppression of Acts of Nuclear Terrorism as soon as possible, in accordance with their legal and constitutional processes;

3. *Urges* Member States to take and strengthen national measures, as appropriate, to prevent the acquisition and use by terrorists of radioactive materials and sources, as well as terrorist attacks on nuclear plants and facilities which would result in radioactive releases, and, if necessary, to suppress such acts, in particular by taking effective measures to account for, secure and physically protect such facilities, materials and sources in accordance with their international obligations;

4. *Encourages* Member States to enhance their national capacities with appropriate means of detection and related architecture or systems, including through international cooperation and assistance in conformity with international law and regulations, with a view to detecting and preventing illicit trafficking in radioactive materials and sources;

5. *Invites* Member States, in particular those producing and distributing radioactive sources, to support and endorse the efforts of the International Atomic Energy Agency to enhance the safety and security of radioactive sources, as described in General Conference resolution GC(58)/RES/10 and to enhance the security of radioactive sources as described in the Nuclear Security Plan for 2014-2017;

6. *Urges* all States to work towards following the guidance contained in the International Atomic Energy Agency Code of Conduct on the Safety and Security of Radioactive Sources, including, as appropriate, the Guidance on the Import and Export of Radioactive Sources, noting that the Guidance is supplementary to the Code, and encourages Member States to notify the Director General of the Agency of their intention to do so pursuant to General Conference resolution GC(58)/RES/9;

7. *Encourages* Member States to work with the International Atomic Energy Agency in order to enhance the non-legally binding international framework for radioactive sources, especially on the safe and secure management of disused radioactive sources, which may include adequate provisions for safe and secure storage and disposition pathways for disused sealed radioactive sources so that such sources within their territories remain under regulatory control, as well as arrangements, as practicable, between Member States to permit the return of disused sources to the supplier States;

8. *Recognizes* the value of information exchange on national approaches to controlling radioactive sources, and takes note of the endorsement by the Board of Governors of the International Atomic Energy Agency of a proposal for a formalized process for a voluntary periodic exchange on information and lessons learned and for the evaluation of progress made by States towards implementing the provisions of the Code of Conduct on the Safety and Security of Radioactive Sources;

9. *Encourages* Member States to participate, on a voluntary basis, in the International Atomic Energy Agency Incident and Trafficking Database programme;

10. *Welcomes* the efforts undertaken by Member States, including through international cooperation under the auspices of the International Atomic Energy Agency, to search for, locate, secure and recover unsecured and/or uncontrolled

("orphan") radioactive sources within their State jurisdiction or territory, and encourages continued efforts in this way;

11. *Encourages* cooperation among and between Member States and through relevant international and, where appropriate, regional organizations aimed at strengthening national capacities in this regard;

Taking note of the report of the Secretary-General,[4] which includes an overview of the implementation of resolution 68/48,

Welcoming the inclusion of small arms and light weapons in the scope of the Arms Trade Treaty,[5]

1. *Underlines* the fact that the issue of the illicit trade in small arms and light weapons in all its aspects requires concerted efforts at the national, regional and international levels to prevent, combat and eradicate the illicit manufacture, transfer and circulation of small arms and light weapons, and that their uncontrolled spread in many regions of the world has a wide range of humanitarian and socioeconomic consequences and poses a serious threat to peace, reconciliation, safety, security, stability and sustainable development at the individual, local, national, regional and international levels;
